SKILLS

- Creative Thinking
- Problem Solving

OBJECTIVE

Enthusiastic MERN Stack Developer with a strong foundation in Html, Css, Javascript, MongoDB, Express.js, React.js and Node.js. Eager to apply my skills to innovative projects, committed to continuous learning, and dedicated to making a meaningful impact through high-quality solutions.

PROJECTS

- **Mythra Shopping Website (Recreated)**

Developed an engaging shopping website using HTML, CSS, JavaScript, React.js, and React Bootstrap. Implemented features such as product categorization, a shopping cart, and user authentication to enhance the shopping experience. Focused on responsive design and UI aesthetics, demonstrating strong front-end development skills and a solid understanding of modern web technologies.

GITUP LINK : <https://github.com/Savitha1999/Mythra-Shopping>

- **Amazon Shopping Website (Recreated)**

Developed a fully functional e-commerce website inspired by Amazon, utilizing HTML, CSS, and JavaScript for front-end development. Implemented React for building a dynamic user interface and managing state efficiently. Leveraged React Bootstrap to ensure responsive design and enhance the user experience across various devices.

GITUP LINK : <https://github.com/Savitha1999/Amazon-Shop>

- **React Form Validation**

Developed a user-friendly form validation system using React, ensuring data integrity and enhancing user experience. Implemented real-time error message display for input fields, guiding users to correct mistakes efficiently.

TECHNICAL TOOLS

■ Version Control :

Github

■ Front-End Frameworks:

Bootstrap,

React Bootstrap

■ API Testing:

Postman Tool
